

WorkshopPLUS - Power Platform - Model-Driven Apps for Makers

WorkshopPLUS

Duration: 1 Day [Remote / Onsite]

Difficulty Level: 300 - Advanced

Description

This course is designed for Dynamics 365 and Power Platform developers or administrators. It focuses on customizations of tables and their components, managing segmented solutions, and custom help pages.

Objectives

- Gain a deeper understanding of how to customize Dynamics 365 customer engagement apps and Power Platform model-driven apps.
- Learn reliable methods to achieve optimal functionality by extending the product.
- Become familiar with deploying customizations using solutions

▪ Outcomes

Extend your environment to better meet business requirements.

Methodology

Learn by example

Participate in group discussions and learn from presentations and demonstrations.

Hands-on

- Use a ready environment for a hands-on experience
- Access to resources and labs for up to six months after the workshop

Scope

This offering is scoped to the topics in the agenda.

Agenda

Day 1
